We have among us a good average lot of good lows 1 ee pie. They tre a plain, practical folk, good-oatere i tud, sensible, not lackadais cal peop e, but having plenty of wholesome sent: representa its lot of the whole people of the They are citizens of the world, have traveled before, take things quietly, are easy to g : acquainted with, and ready to talk on anyth ug, om root crops to transcendentalism Some of them have been on the Pacifi' slope

herore, but none of them, we believe, have hithface, but is an empire in the extent of its genermountains and rivers which our visitors tell us no country can equal. And we assure them, tee, that we have a very agreemable and salubrious climate, forests the like of which they have never seen, and fruits and core als that no country can surpass But we are not going to set Iowa and Oregon against each other for contrast or comparison. Each is like itself. Were they not unlike there would be no room for surprise when the person locality which he has long known. Each state physical features of the country surrounding us

The Pacific slippe, to those not familiar with it, presents much but is strange, much that is attractive by its very contrast with that to which they have been accustomed. Novelty gives etfects that produce surprise. The energy of the rivers, the grandeur of the mountains, the vast breatth of the recesser region, succeeded by the region where the woods exhibit a marvelous energy and magnificence of growth the mark of the same va differences of air and sky—all these things are noted with curiosity and spoken of with intelli gent interest by our fowa friends. They can see at once how it is that we who have been long mbitted to nature in her western phases have formed a deep attachment for the western coun-We do not say we have a better country n Iown and lifnois. In many respects it is so good. We realize the disadvantages, the are at a distance from the great centers of activity. At such a distance, perhaps, we do not catch the whole intensity of national life rarges, and the consequence is that agriculture, which in many other states gives support at ness, consequently, is of slower growth. Our tiwns and cities do not rise so fast as those in s me of the states no older than our own. And yet we have here many things that lend significance to life, and they who stay long enough on the Pacific slope to get into harmonious relations with the country —and it doesn't take long—are never content thereafter to live elsewhere. This is especially true of ladies from other states who get into bermonious relations here with nature-and

the whole people of the Think which will bid the Howans welcome. They come to rediscover the country fund by our own pioneers forty years ag. It is the first time we have been honored by the visit of so large a e last forty years many of her children, who have always been among our most cherished citizens. Our present visitors tell us that many greet the lowans, our visitors may we greet

THE TIECTION TO-DAY

Lemecritic politicians are making great is a election that they may use the power to e-gained thereby for obtaining control of the overnment of the county and of the etate This is the object that hes behind the enderver to crity the present election. But to garry the partisan object lifedeemed prudent to attempt to degree at. Hence all the twaddle on irrelevent questions. The democratic managers resolved to s straight party ticket. Yet they knew He attempt to elect it on party lines would be hopcless and so the question of water rates is trumped up, though the prestion is in no way. nvolved in the election. Should they succeed, wever in winning the day, they will pro-caim tatence against a strumpher democratic

4 NATION IT DUTY What to do with the lilian is as arriors a

question to-day sent was twenty five years ago Wars, disease, the extens in of settlements and of rathroads here twenty may differ the situation, suittee have not softed to problem. Indeed, it is more ergent than formerly, for the people who once ere powerful and defiant are now helpless and set missive. The problem of peace is more per-plexing than the problem of war. Many plus have been tried, but all have failed. Our present system is, in his enormous expense, an inhumbled, unc vilized and until for civil zation

The agency system, as now operated, ten is to the fegradation of those whom it is designed to benefit. Instead of turning the native integendent spirit of the Indian to account, it makes of him a dependent and a pauper. It attempts because it would do too much. Real progress m a race, like progress in an individual, must develop from within. The In ran must have better notices before he abetter min the must creep before he withs

Between the cruel plan of extermination and the feolish one of elevation to the level of curown reneral Miles made a remark which we believe to divination had been progressive through the stages of hunting, herding and agriculture, leading up to mechanics and the higher arts. The Indiana of the country are now ready for the sex nd in I third startes, but the agency system, by luntling the rewards kills the moint for cuterprise in these directions. Indians, like white men, will not

their own The necessity for subsistence and the pride of property are the mainsprings of progressive energy. Under the agency system the Indian has neither. And like any other man in the same situation, he remains mactive

fort, that knowledge will lift the race it once from savagery to civilization, but the experiment has progressed sufficiently to show that the benevolent hope upon which it is based is van The educated Indian is not a grailred man—he is simply an educated savage. The leopard may be made captive and his spots rainted over, but he will be a loopard still, and just so with an Indian The distance from barbar-ism to civilization is too great to be accomplished at a single bound. The laws of heredity will not yield, no matter how sincers or benevclent the effort. And if they would, see ety has no place for the educated Indian. His contest for place, however high his mixit, would of ne-

cessity be he peless.
We believe that the thing to do is to nake of and leave him to work out his own salvation. It is useless to force books upon a people whose men plant and to reap rather than how to spell or to

We I cheve that every resorvation in the Saun-try should be broken up and that every Judian should be given a piece of land to be his own reperty. The government she ald start here in many career with stock or implements, or oth, and should supply instructors and advisers for him. The Indian should be suffect to the common law of the land, and the same law should protect him in his rights. He should be infected with the impulses and in dives of in te pendence and industry.

It is urged against this plus which we do

not claim to be either new or original in its general idea; that the lifticulty would be in securing carable and honest men to set it in mo-tion and to maintain its operation during the first few years. This is foolish. The country is not so short of ment that there need be any dif try In an opinion rendered only a few nonths ago, Judge Mutthew P. Deady, in the United States circuit court, made the following signifi-

LOCAL AND GENERAL

As (1941) The lower place accurate the train balled. Although it was also at might well as the place of the person and the proposal content of the person and the place of the person and the person and the place of the person and the place of the person a with an exation at every point where the'r main haifed. Although it was late at night when shoshone was reached, the bruss bank of doat thriving town, though organized only the days hefore, was on the platform to seronace them the rowey eithors were stracted from their couches by the dulest notes of the hewgag and to rowey, the most with the barmony of the sack-jut and psaliory and the ling a ling of the triangle and clause, and on roung to the windows saw the band in tall best. One energetic he wer, whose back was toward the train, hore on his shoulders a placard on which was painted "hour! shoot, nors we are doing the best we can." The bass drum beater had a hig yellow dog tied to his leg. It was that suppressed that this was intelled at a precentionary measure, but it was soon asciplaned that the dog made and, as after the drummer had beaten his drum for a while he tarned loose on the dog and beat him, sort of played upon his feelings in it work, to the great improvement of the mid-rolly one of the events onists remarked that if the te which bound the log to the crummer was severed the first dyclanation the animal would utter would be, "Fil be doggone. He was the train pulled out.

Several Pierromana Explanation to animal him as the train pulled out.

cration, added to the great superahumdance already here, might sink use edge of the continent and cause a tidal wave which would sloss all over tirgeon.

PAD BY W HT HR PIET — The greater number of countrymen on the Columbia inventor being remploy thinamely, who from nearly the interference or cannerses, by the month free corticat with a gang of Chinamen or put up the fish, taking them from the deck where they are laffied and putting them through all the various manipulations necessary up to making up the cases. The whole work is done by this plan for \$2 cents a case. It takes a much its a number of men to do the work now, as the men lain will mig to work sarly and late, and every one pulls out and does his level best, as the more they do the more they are a mazed at the switness and dexterrily the Chinamen and will not work at any other if be can avoid it. The rate per case given above does not, particular branch of the busiless and will not work at any other if be can avoid it. The rate per case given above does not, are missing in thin in the first of the work. Such the same head at City View park yesterday. The lumining many which ended at \$4.55, and the bout did not leave until after a colocial very large of the base large.

HOW TO UPT HOMF — About 700 too de assembled at City View park yesterday. The lumining rare was called at 16th the colocial very relief to the work with the moment's wall, where the pressions sinder, when the game was over, meant of the north the pulled out without the moment's wall, where the pressions and key for the race ought to hape gone to the landing they would have been take without delay of the previous consists of the work. The rate per case given above does not, the work with the pulled out without the moment's wall, where the every large of the base is the colocial very large the delay of the previous sandar, when the game was over, in a distribution of the work which the distribution of the work which we do the pulled out without the moment's wall, where the pressions and

STROIDE PARSENCERS.

ROW OUR NOTHING—A tremendous cumpus was reased on First street, near Main, last evening, by a hobbledehop hoodium, who gave the name of G. Oliver. He get into a dispute with a negro boy in a coffee house, and some one blew a poince whistle, and a crowd collected around the door as if a nurder had been committed. The whole affair was a case of greatery and little wool, as his satanic remarked of his attempt at shearing a pig. Oliver was air rested and a charge of disorderly conduct preferred against him by Lewis Galllp.

per mouth

The placer mines at Prigrim guich have been shut down for writt of water. The drit is said to be very rich, and when the miners first strict to work they had 150 mehes of witer, which dwn died down to litteen and necessit ated the thesing of work.

The total disbursaments of the futtle commones for wares and said pless in mouth \$41.5.

The total disbursoments of the Butte companies for wages and say pless in month \$115, 600 per north. The slice recipies output of the dusting introduced with the first of the complexes of the companies, exclusive of wood men number \$150. The lately discovered companies, exclusive of wood men number \$150. The lately discovered companies in the souls county says the Helenn Her it, are booming up in great shape. Last week submering on the claim of Buck, leftey & Sage, resulted in a cient up averaging between \$300 and \$50 per day per man. The gold taken out is coarse grain, runs event, and is worth \$14 per ounce.
